| F30-H Commercial Automatic Coffee Machine |

# Produce velvety hot and cold milk foam effortlessly

Superior brewing  
with BLDC metal  
system

The double boiler in  
the F30 ensures stable  
temperature control

Fully automatic  
cleaning system

Professional grade bean  
grinder for optimal  
coffee preparation

# Dr.coffee F30-H

The F30-H represents a robust and versatile coffee machine, boasting notable enhancements in taste refinement, production efficiency, intelligent operation, and other key aspects. Tailored to meet the demands for high strength and superior quality coffee.

## Indulgent milk

Enjoy the sophistication of our precise hot and cold foam system, allowing for customisable foam density and seamless automatic milk cleaning. Enjoy high-quality cold/hot drinks in approximately one minute.

## Quality coffee

Featuring Swiss-imported 64mm commercial-grade metal grinding burrs, our machine ensures low heat, extended lifespan, and consistent coffee particle size distribution, enhancing the coffee flavour profile.

## Beneficial efficiency

By integrating professional vane pumps, milk pumps and dual grinders/boilers, our system significantly enhances production efficiency while upholding uncompromised quality standards.

## Intelligent choice

Featuring a 10.1-inch LCD touch screen interface, our system offers seamless access to over 30 beverage options with a single touch. Customise the screen saver image, facilitate USB data transmission, and enjoy support for multiple languages.

## Features

- Precise BLDC metal brewing ●
- Dual boiler for stable temperatures. ○
- Pro grinder for rich flavour ●
- Smooth milk foam system ●
- Efficient production with vane pump ●
- Dual grinder, double boiler for efficiency ●
- Intuitive 10.1" LCD touch screen ●
- 30+ Beverage options at your convenience ●
- Customisable screen, USB and multi-language ○

## Technical Data

Powder Canister Capacity (g)	1200*2
Powder Hopper Capacity (L)	2,3*2
Grounds Box	900
Display Orientation Rated	10.1"
Voltage (V)	220-240
Rated Frequency (hz)	50/60
Power (W)	2900
Machine Weight (kg)	41
Machine D*W*H (cm)	34*54*83

## Capacity

Advised daily output (cups)	300
Produce 50ml/cup of Espresso per hour (cups)	140
